

Rancho Bernardo *Neighborhood Watch* **Board of Advisors**

Minutes from September 19 meeting:

Beat Coordinator, Gary Carlson, convened meeting at 9:05. CRO Paul Lennon summarized his personal status and his responsibilities for 120 square miles. Of course, this limits his attention to RB. He provided a little insight into a couple bank robberies during the recent month. Hal St Clair reviewed the crime statistics he reports and what does not get reported. This latter case involves domestic violence and therein lies an area of controversy in the processing of crime data which we will work with the police to resolve during the coming year.

In his District A report, Tim Dodge announced his success at recruiting 8 block captains by speaking at an elementary school parent meeting. This is a unique concept that we might utilize in the future. Anna Marzouk pointed out the effectiveness of posting flyers – in this case the water alert that RB experienced a couple months ago. Jim Harmon reported the plans for the October 21 EPP drill. He also reminded us of the RBCF grant process and need for rapid action. Gary Carlson closed the meeting with a brief discussion of NHW goals for 2007. Meeting adjourned at 10:30.

AGENDA for Tuesday, Nov 21, 2006
